Kellogg's Washington

THE HONEYSWEET STRAWBERRY

Here It Is—Actual Size

All strawberries are good, but Washington is much better than good; it's delicious. Yes, it's scrumptuous.

If you are looking for the biggest and sweetest strawberry in the world, you need look no farther, you have found it right here.

Washington is Honey-Sweet and it's big, too. In size, it's the whale of the strawberry family; in flavor, it's the honey of the strawberry family; in color, well, I am unable to describe its color. It's so dark red I would say it's between dark red and black with a sparkling surface.

Plants grow big and tall; makes a big wide row; long fruiting stems and lots of them. Each stem loaded with big, deep, dark red glossy berries. One plant produced more than 300 berries.

Look at the stem and crotch of berries made from actual photograph. These pictures show bigness and productiveness. I have picked berries larger than any of the berries shown here.

Genuine Washington Plants

The originator of the Washington strawberry sent us plants for testing five years ago. We tested it two years before we started propagating the plants. During the two years of testing, we watched this variety closely, studied its characteristics, then we selected our propagating plants from the heaviest fruiting mother plants.

By selecting from the best type of fruiters, we secured a strain of plants which are 100% pure and 100% productive. Every Kellogg Washington plant is a Thorobred. The Washington plants I send you will be guaranteed absolutely true to name and free from any variation in plants. Late Bi-Sexual (Male).

8 KELLOGG THOROBBREDS—ALL

Kellogg's Dr. Burrill

Here's another of Kellogg's wonderful fruiting mid-season strawberries. Resembles Dunlap in many respects. The big sturdy plants yield big crops of big dark red solid berries; grown largely for market and for canning; very desirable for home gardens; dependable in all soils and climates. A bi-sexual which requires no mating. Fruits best in narrow rows.

Kellogg's Marvel

Marvel is a late bi-sexual that is producing some wonderfully large strawberries which have sold as high as \$8.00 to \$10.00 per crate. Big robust plants which give a good protection against frost. The berries are extra large, dark red clear to center with big green calyx; beautiful as well as delicious. Does best grown in narrow rows.

Kellogg's Senator Dunlap

It would be difficult to find another mid-season strawberry that would produce as many berries and as much profit as Kellogg's Senator Dunlap. One Illinois customer reports 13,000 quarts per acre; another grower writes that he made at the rate of \$1800.00 per acre. Kellogg's Dunlap is a big yielder of big berries in all soils and climates.

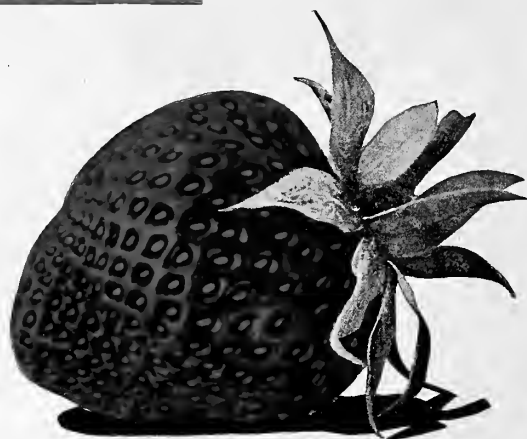

Dunlap is a tall grower and heavy producer of big dark red berries from surface to center. A good shipper, a wonderful market strawberry; one of the best for home gardens and a most wonderful canning strawberry. For big crops and big berries, grow Dunlap in narrow rows. A strong bi-sexual, requires no mating.

HEAVY FRUITING VARIETIES

Kellogg's Beauty

Everyone who sees Kellogg's Beauty fruiting declares it to be the most beautiful strawberry ever grown. Berries as large as walnuts, solid as a peach, juicy as an orange and sweet as cake. Its sparkling beauty, delicious flavor, and bright green calyx demands the highest price on all markets.

Plants grow 12 to 15 inches high, extra large leaves; long heavy fruiting stalks which hold the berries high up in the big plants which makes picking extra easy.

Kellogg's Beauty brings in a lot of compliments from all parts of the country. Some growers declare Beauty to be their very best late strawberry. A good bi-sexual; fruits heavily in narrow or wide rows. Grow Beauty for big, beautiful berries.

Kellogg's Big Late

The late strawberry with a fruiting record of \$1,213.95 from only one-half acre. A great many growers have told us that Kellogg's Big Late produces the most wonderful late berries they have ever grown.

The plants grow tall with a large number of strong, tall fruiting stalks; holds its berries up from the ground which makes picking quick and easy. The berries are large, bright red which fairly sparkle and one of the most delicious berries you ever have tasted. Fruits heavily in narrow or rather wide rows.

Big Late is a pistillate and should be planted with Beauty, Washington, Marvel or some other good bi-sexual. A most splendid strawberry for home garden or market.

SUNSHINE from R. M. KELLOGG Co.

THREE RIVERS, MICHIGAN

To Sunshine Families,
Everywhere.

Dear Sunshine Friends:

Introducing
KELLOGG'S NEW SUNSHINE
GLADIOLI COLLECTION

This letter will introduce to you Kellogg's New Sunshine Gladioli Collection which is artistically planned to give a display of color and beauty that will add charm and dignity to your garden and bring joy and sunshine into your home.

Every known color and combination of colors is blended into Kellogg's New Sunshine Gladioli Collection. These well chosen varieties with their brilliant, dazzling and lovely colors will make your flower garden distinctive, harmonious, and beautiful.

Kellogg's New Sunshine Gladioli Collection is made up exclusively of big show varieties of the large flowering kinds, mostly prize winners; ruffled, crimped, and plain petaled, each distinctive in its class, each playing its part artistically and harmoniously, each adding its ray of brilliant, entrancing beauty.

It requires 106 bulbs and many different varieties to make up the artistic color scheme in Kellogg's New Sunshine Gladioli Collection.

When these 106 bulbs of many outstanding varieties unfold their colorful hues, you will have a display of color and beauty that only Kellogg's New Sunshine Gladioli Collection can produce, and a flower picture that only nature could paint.

You will find here a value never before offered in gladioli. The greatest variety of charming colors and beauty ever put into one collection, the biggest and most attractive bargain ever offered to flower lovers. A box full of "sunshine" at a special low price that will make your "Dream Garden" come true.

Sincerely yours,

J. E. Beatty Pres.
